720, 870 CHILDREN IN SCHOOLS OF KENTUCKY

Census of 1914 Shows Slight Increase Over Figures of Last Year.

Frankfort, Ky., July 7.—The school census population has been completed and shows that there are 727,870 children of school age in this State. Of this number 590,112 are in the rural districts and 137,757 are in the cities. The census shows a slight increase over last year, as there were 721,636 children of school age in 1913. In 1912 the school census showed that there were 730,359 children of school age in this State. At that time Superintendent of Public Instruction Barksdale Hamlett went after several of the cities for padding the school census and as a result the census was decreased. The census for 1913 gave the rural districts 584,718 children and the cities 136,918. In 1912 there were 144,667 children of school age in the cities and 586,292 in the rural districts.

If the above report is as far off from the correct figures in all the counties as it is in the Mason County report, the census is indeed a bore. It puts Mason County down as having 2,801 white school children and 489 colored. Seven hundred colored school children would be more like it.

D. HECHINGER & CO.

Maysville's Best Clothing and Shoe Store.

As an evidence that our "ADS" are believed by the reading public, we sold the past week more suits than any week since May. We don't say this boastfully for the prices we are realizing in many instances barely cover cost, however we deem it better "to turn Merchandise into cash" than to carry the stock over into next season. Please remember the Price Reducing Sale closes next Saturday night. A good many of the suits in this sale are sufficiently heavy for fall wear and precisely the same style as will be worn next season.

The river is fast receding—Maysville's beach is again the Mecca for water lovers. A full complement of Bathing Suits found here. Our Japanese Tokio Crepe Shiras are just the thing for this temperature. If you have not yet seen them come and let us show them to you.

TEACHERS ARE SURE TO GET THEIR MONEY.

(State Journal.)
The fiscal year of the Commonwealth, closed with the largest amount probably in its history in the common school fund—\$638,927.37. This fund is inviolate and it insures that the pay of teachers will be promptly met from the time the first apportionment falls due in the fall. Last year, June 30, there was to the credit of the school fund in the treasury \$282,568.76.

MINERVA DOES THINGS

People of That Precinct and Fern Leaf Vote 105 Majority for School Consolidation and a 20 Cent Tax.

Hats off to the people, and especially the taxpayers, of Minerva and Fern Leaf, who yesterday voted upon themselves an extra tax of 20 cents on the \$100 for the purpose of consolidating the school in that district and transporting the pupils.

The total vote stood 175 for the tax to 70 against it and is considered a great victory for the consolidated school system in this county.

This probably means that a \$20,000 modern school building will be erected at Minerva, where the people have ever stood for education. They have reaped a good harvest too.
